rEarth

It starts with a bottle.

rEARTH: MADE FROM RECYCLED WATER BOTTLES

Introducing rEarth, McConkey's new line of environmentally friendly containers. rEarth appeals to today's environmentally conscious consumer and is a viable cost-neutral alternative to polypropylene and styrene containers. Available in a variety of thermoformed containers.

How it works

1 Bottles are brought to a recycling facility...

2 ...where they and other curbside plastics are shredded into flakes...

3 ...which are melted down and formed into plant containers!
